

Gyproc® ProCote

Levelling Plaster for Interior Application

Product Description

Gyproc ProCote is formulated hemi hydrate gypsum made of naturally occurring gypsum material ($\text{CaSO}_4 \cdot 2\text{H}_2\text{O}$)

Applications

This product is a leveling plaster with the following properties:

- As a plastering for internal solid background.
- Make a reference level at 5-50 mm.
- Apply for lightweight brick, concrete, clay brick or cement block.
- Ready to use and easy to apply.
- Thermal insulation improvement.
- Smooth finish and crack free.

Technical Data

The technical data outlined represents typical figures only. For further details, please contact Thai Gypsum Pcl directly.

Plaster to water ratio,	2.5 - 3.0 : 1
Working time	70 - 90 min
Setting time	4 - 5 hrs
Flexural strength	≥ 1.0 N/mm ²
Compressive strength	≥ 2 N/mm ²
Adhesion strength	> 0.1 N/mm ²
Color	Off-White
Coverage at 10 mm thickness	1 kg = 0.13 sqm

Chemical Content

Sulphur trioxide content	not less than 35%
Calcium oxide content	2/3 of SO_3
Sum of the soluble not more than 0.3% sodium oxide (Na_2O) and magnesium oxide (MgO)	
Loss on ignition	5-7 %
Free lime	less than 0.5%
Organic material	less than 1%

Processing:

- Use the plaster to make reference lines (screeds) with the required plaster thickness every 1.2-1.6 m, and then leave it to dry.
- Trowel - apply the plaster in 2 layers. The 1st coat to quickly cover the whole surface and 2nd coat applied immediately with firm pressure to build out to the required thickness.
- When stiff, flatten the plaster to the reference level (screed) by straight edge. No sponging process and water curing is required.
- After the plaster sets, within 3-4 hours, use a patching trowel to make smooth surface. Then apply Gyproc skimming plaster in 1-2 layers to smoothen the surface to its final finish.

This plaster can be modified to suit the specific requirements of the customer.

Pack sizes : 20Kg polypropylene bag.

Gyproc® ProCote

Levelling Plaster for Interior Application

When stored under dry conditions, this product will have a shelf life of eight months from the date of manufacture that is displayed on each sack.

Standard reference:

- TIS 188-2547
